Gift Card Box Pattern

Add a personal touch to your gift-card presents by making the box yourself. It doesn't take much to make this darling little box come to life. Wrap with a simple ribbon or decorate with an assortment of your favorite paper-craft supplies.

Read through all instructions before beginning.

Materials List

- 8.5" x 11" or larger double-sided cardstock
- glue stick
- paper-scoring tool
- Xacto knife
- embellishments of your choice

1. **Cut out Tray & Sleeve** - Cut one tray and one sleeve from cardstock, using provided pattern as a guide. Score where indicated by dotted lines. Cut where indicated by solid lines.

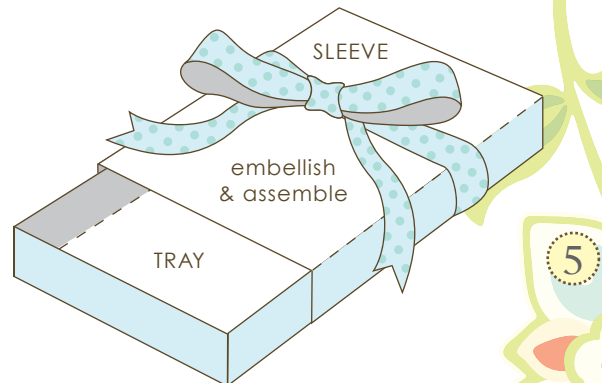

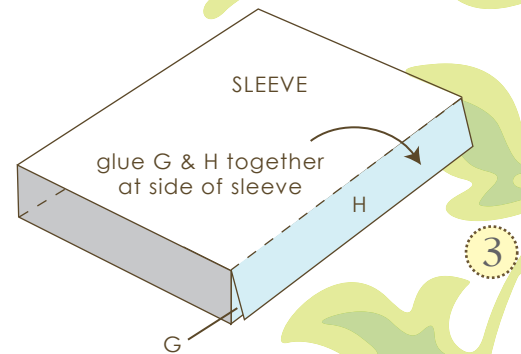

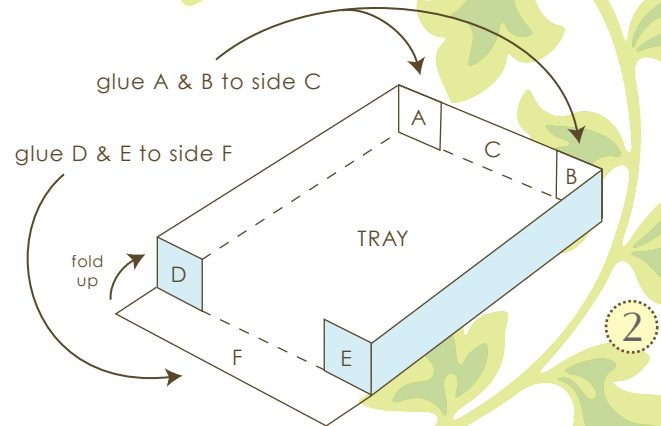

2. **Form Tray** - Fold flaps A & B toward wrong side of paper. Fold up side C and glue to flaps. Repeat with side F and flaps D & E at opposite end of tray.

3. **Form Sleeve** - Fold sleeve along score lines, forming a rectangular tube. Make sure featured side of paper is on outside. Overlap side G onto flap H & glue.

4. **Embellish Box** - Embellish outside of sleeve as desired. Get creative with ribbons, buttons, brads, photos, crystals, flowers, etc, or keep things simple with a single ribbon tied around the middle.

5. **Assemble & Complete** - Slide tray into sleeve. Add a To/From note on the outside of the box or slip a mini card inside the box with your gift and you're all set.

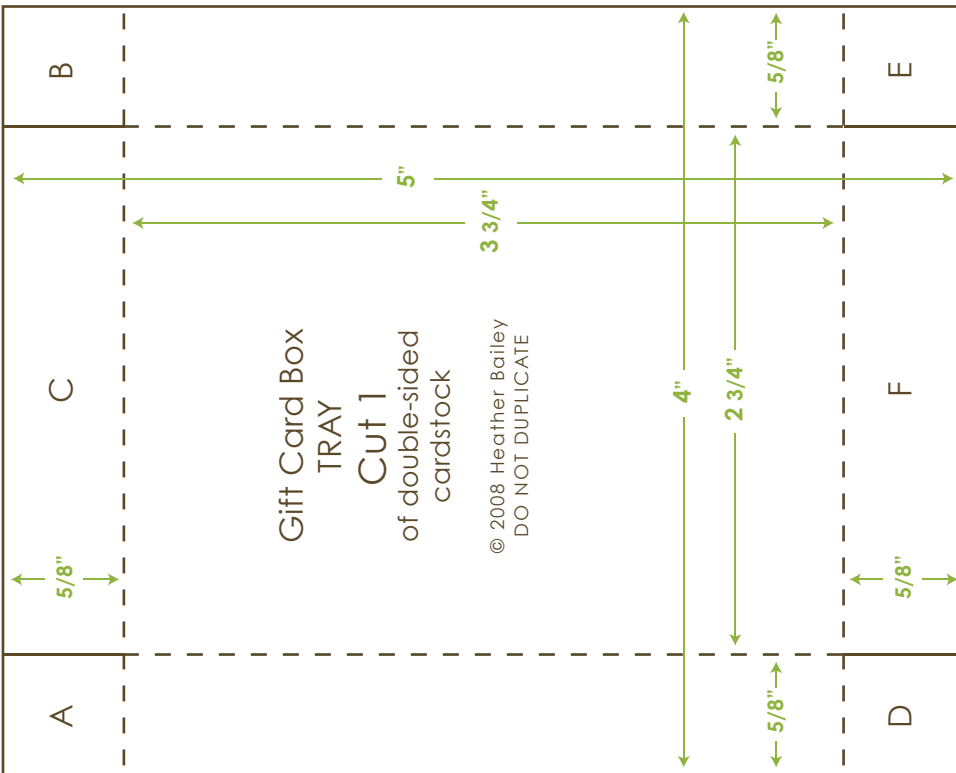

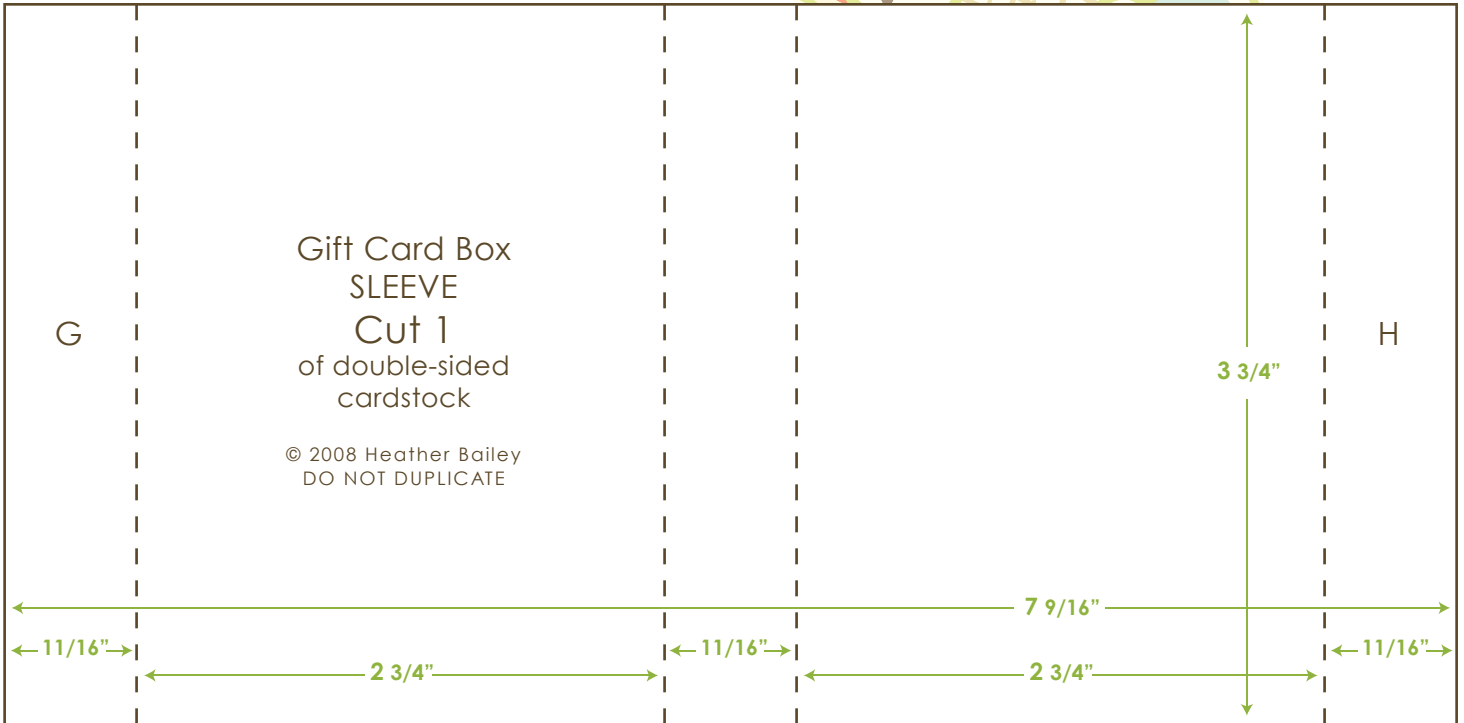

Enjoy!

Gift Card Box Pattern
